

Medaval rating of Blood Glucose Meters recommended by the Australian consumer organisation *Choice*

Monitors are listed according to clinical validation.

Devices without evidence of validation include those without either a published paper proving validation or scientific evidence of equivalence to a validated device. Medaval will update devices where scientific proof of validation or equivalence is provided.

Warning: Blood glucose meter accuracy requires strict adherence to manufacturer instructions. If the procedure is not followed correctly, the results can be very inaccurate.

Symbols:  Recalled

★★★★ 3-Star Blood Glucose Meters ★★★★★

Abbott FreeStyle Freedom Lite	J&J OneTouch Verio IQ 
Bayer Contour Next	Roche Accu-Chek Mobile
J&J OneTouch Verio Flex	Roche Accu-Chek Performa
