

Medaval rating of Blood Glucose Meters recommended by Consumer Reports (US)

Monitors are listed according to clinical validation.

Medaval certification is awarded only to devices with the most accurate measurement technology. For accreditation, proof of validation and adherence to international standards is scrutinised by Medaval with independent peer-review.

Warning: Blood glucose meter accuracy requires strict adherence to manufacturer instructions. If the procedure is not followed correctly, the results can be very inaccurate.

CRUS Recommendations: Excellent Very Good Good Fair Poor Recommended
