

Medaval rating of Blood Pressure Monitors recommended by the UK consumers' association *Which?*

Monitors are listed according to clinical validation.

Medaval certification is awarded only to devices with the most accurate measurement technology. For accreditation, proof of validation and adherence to international standards is scrutinised by Medaval with independent peer-review.

Devices without evidence of validation include those without either a published paper proving validation or evidence of possible MDR equivalence to a validated device. Medaval will update devices where scientific proof of validation or MDR equivalence is provided.

Warning: Wrist monitor accuracy requires strict adherence to manufacturer instructions. If the monitor is not positioned correctly, the results can be very inaccurate.

Devices not recommended by Which?: Listed Previously

Other Symbols: Discontinued

★★★★★ Certified 5-Star Blood Pressure Monitors ★★★★★

iHealth Feel BP5

★★★★★ Certified 4-Star Blood Pressure Monitors ★★★★★

iHealth Sense BP7 (KD-972)
